Hero Section

Invest in the Company Opening Real Estate Investing to Everyone

Reiturn® lets anyone invest in professionally managed apartments for as little as \$1,000. But this raise offers more: *equity in Reiturn® Inc.* Built by a team that managed \$350M in assets and delivered 20% annualized returns across 3,600 apartments, we earn on every dollar that flows through the Reiturn® platform.

The engine is built and tested. Invest before it scales.

Problem

Real Estate Investing Is Broken for 99% of People

A whopping 90% of millionaires invest in real estate. It's no accident: it's among the most proven wealth-building assets. But the system was always designed to keep regular people out.

1. **High Barriers:** \$250,000 minimums and accreditation requirements shut out 99% of investors.
 2. **Opaque Investments:** Those who invest have no visibility into what their money is doing.
 3. **Lack of Liquidity:** Money being locked up for 5-10 years doesn't fit modern portfolios.
-

Solution

Reiturn®: The World's First Impact REIT Platform

Robinhood became a \$100B company by modernizing and simplifying how people trade stocks. Reiturn® does the same with real estate, letting anyone invest in professionally managed apartments, no accreditation needed. And Reiturn® Inc. earns on every dollar flowing through the platform.

- \$1,000 investment minimum (vs. \$250K+)
- Three-minute onboarding via phone
- Live performance dashboard
- Real apartments with real rents, not tied to stock markets
- Pathways to sell whenever

Why Reiturn® Stands Out for Investors

We successfully built a \$350M asset portfolio across 3,600+ apartments by focusing on “the Forgotten Middle™.” And through Class B workforce housing in Heartland cities like Pittsburgh, Cincinnati, Buffalo, and Louisville, we delivered 20% annualized returns and 45+ consecutive quarters of distributions. With steadier rents, lower turnover, and more durable returns, we’re bringing that same approach to Reiturn®.

Your Investment

How Your Investment Powers the Reiturn® Engine

By investing in Reiturn® Inc., you’re at the center of everything we do, earning on every dollar moving through the platform. Public investors fund our REIT, which acquires and manages apartment buildings. Those buildings generate returns, which flow back to Reiturn® Inc. as asset management fees and carried interest. The more capital that flows in, the more the engine earns, and the more valuable your equity becomes.

Traction

Built on a \$350M Track Record, Proven in 5 Weeks

Over a decade with Birgo Capital, our team managed \$350M in assets across 3,600+ apartment units. In the process, we delivered 20% annualized returns and 45+ consecutive quarters of distributions. Now, after just 5 weeks with Reiturn®, we've seen:

- \$203K raised from 178 investors
 - \$2.15 cost per lead (industry avg: \$10-50)
 - 5.7% conversion rate (industry avg: 1-2%)
 - \$38 CAC per investor
-

Why Now

A \$380 Trillion Market Meeting Its Digital Moment

The way people invest in real estate is moving from boardrooms to computers, creating an enormous opportunity for whoever makes the move easiest.

- \$380 trillion global real estate market
 - The real estate crowdfunding market will grow from \$29B today to \$122B by 2029
 - \$124 trillion wealth transfer from Boomers to the digital-first Gen Z and Millennial generations by 2048
-

Expansion

The First REIT Is Proof of Concept

Reiturn® isn't like a REIT you'd find on Robinhood. We create and operate them, and this raise lets you own a piece of the entire company. Our current REIT is just the first fund. This tech was always built to host many. Every new REIT we launch adds a new revenue stream to the platform, making it, and your equity, more valuable.

Team

Over a Century of Combined Leadership Experience

Led by our original founders, Reiturn® boasts a 100-person team that's managed \$350M of assets, delivered 20%+ annualized returns, and never missed a quarterly distribution in over a decade.
